

Cystic Fibrosis Australia would like to thank all the Medical attendees for supporting the 14th Cystic Fibrosis Digital Medical Conference.

The Medical Conference Committee generously gave their time and shared their knowledge and expertise to create an outstanding program.

The theme “Care for All” was the vision of conference chairman, Phil Robinson, and he was inspirational in the way he orchestrated the outstanding content of the conference.

More than 50 Australian CF experts and 18 international luminaries presented at our conference and they must be thanked for sharing their knowledge and adding to the expertise of all attendees.

Finally, thanks must go to our conference sponsors who make it possible to hold an international event of this scale with the highest calibre of speakers.
