

Post Graduate Studentship Grant

Application Form for 2019

The Australian Cystic Fibrosis Research Trust (ACFRT), associated with Cystic Fibrosis Australia (CFA), encourages and funds research to advance our understanding and treatment of cystic fibrosis (CF) and to provide better support for those with CF and their families. We know that many of those who are committed to CF research begin these studies early in their careers. We want to help as many excellent young women and men as possible conduct research projects on cystic fibrosis for higher degree study.

The ACFRT offers a "top-up" grant of \$5,000 per annum for three years, for up to three applicants each year who are conducting research for a higher degree (PhD, MD or equivalent) on a CF research project. The awards will go to individuals who already have an award of a studentship and fees, such as an APA, a University post-graduate award, an NHMRC Studentship or equivalent. Applications are welcome from those carrying out laboratory, clinical, allied health or public health projects, particularly research with implications for adults living with CF. It should be noted that the success rate of applicants for these grants is higher than for most granting bodies. The applicant is asked to comply with annual reporting responsibilities.

Applicant Details

Name: _____

Postal address: _____

Suburb: _____ State: _____ P/Code: _____

Ph (inc area code): _____ Mobile: _____

Email: _____

Discipline Studied: _____

Degree Awarded and University: _____

LAY Project Description (including how it relates to CF)

Project Name: Lay

Project Description:

SCIENTIFIC Project Description (including how it relates to CF)

Project Name: Scientific

Project Description:

Additional Application Requirements:

Please include with your application, supporting documentation that this project involves conduct of research for a higher degree (PhD, MD or equivalent) on a CF research project?

Please include with your application, supporting documentation that the applicant already has an award of a studentship and fees, such as an APA, a University post-graduate award, an NHMRC Studentship or equivalent?

Signatures

Supervisor Name:

Department:

Sign:

Applicant:

Supervisor:

- If successful, I agree to submit a short one-page progress report in December each year and a comprehensive Final Report within six (6) months of the end of my project.
- If successful, I understand that I will be required to sign the ACFRT Grant Funding Agreement for Post Graduate Studentships to acknowledge my agreement with the terms and conditions.

Project Description: *Please describe your project in detail below. You may attach relevant information to support your application. We suggest you attempt to complete the description in a maximum of two pages 11-point typescript.*

Be sure to describe why the project will make a difference to our understanding of CF, or to those who live with CF and their families. Describe the resources that you will have to conduct the research at the proposed site.

**Date Received
(for office use)** _____

N.B. Signatures from the Applicant and Institute Supervisor are required.
