

BREAKING BARRIERS FOR CYSTIC FIBROSIS

TODAY'S DEDICATION

DAY 13: WEDNESDAY 13th SEPTEMBER 2023

Flea

In Memory - A story Shared by Lani:

My sister battled CF for 16 years but sadly lost her battle in 2007.

She received a heart and lung transplant at the Alfred Hospital when she was 12 and was one of the first children to have a transplant through the Alfred.

She got to thrive for 3 years post-transplant and watching her gave us all so much joy.

She was so feisty and brave right up until the end of her journey.

Her name was Elke but we affectionately called her Flea. 🥰

She is my single reason for everything I do in life.

I am in total awe of Layne and the challenge in front of him and will be watching and tracking every day!

I've attached a photo of her bright spunky face which has been my Lock Screen photo on my phone since her passing 😭

She is my reason for living life every day to the fullest!

Thanks

Lani 🌹
